

scorpion
BRITISH BUILT WORLD CLASS

SILURIAN 1080

FULL SPECIFICATION

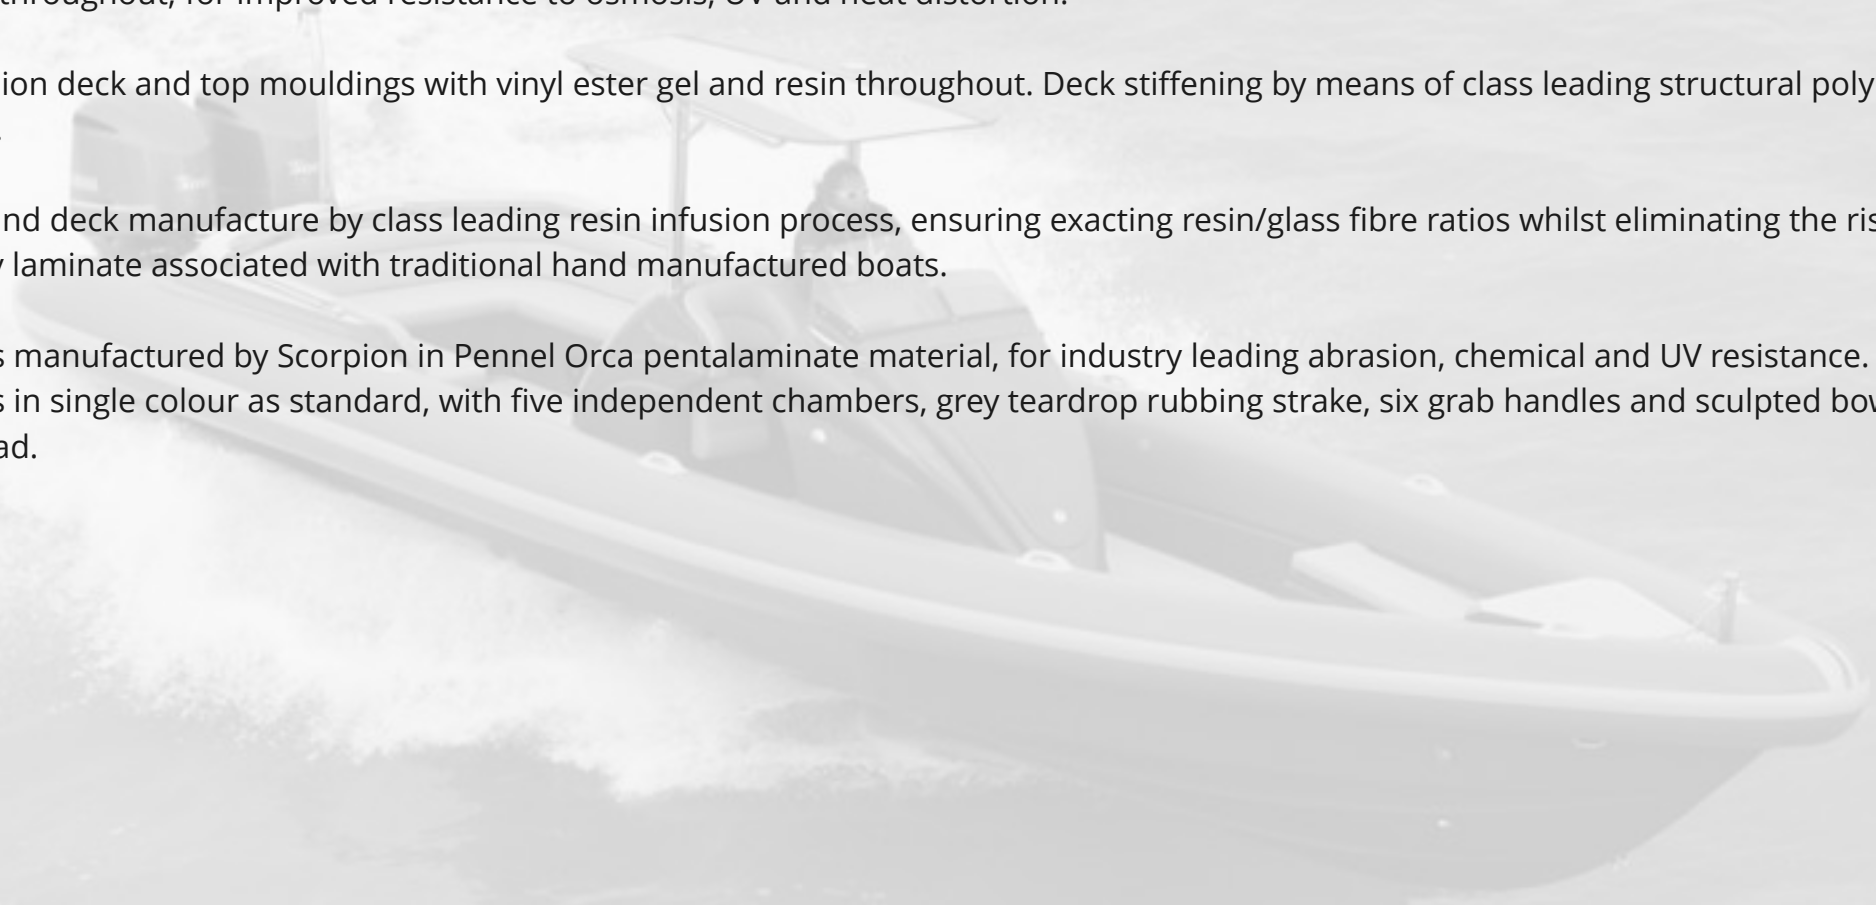

CONSTRUCTION

Scorpion proprietary designed deep V hull incorporating full length longitudinal stringers and underdeck fuel tank. Vinyl ester gel and resin throughout; for improved resistance to osmosis, UV and heat distortion.

Scorpion deck and top mouldings with vinyl ester gel and resin throughout. Deck stiffening by means of class leading structural polymer foam.

Hull and deck manufacture by class leading resin infusion process, ensuring exacting resin/glass fibre ratios whilst eliminating the risks of dry laminate associated with traditional hand manufactured boats.

Tubes manufactured by Scorpion in Pennel Orca pentalaminated material, for industry leading abrasion, chemical and UV resistance. Tubes in single colour as standard, with five independent chambers, grey teardrop rubbing strake, six grab handles and sculpted bow fairlead.

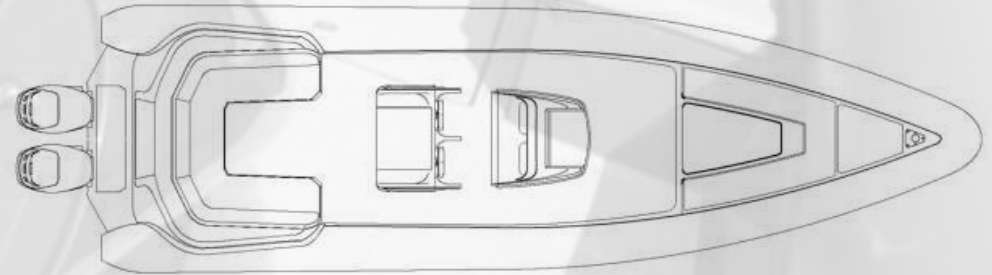

PRINCIPAL DIMENSIONS

LOA	10.49 m
Beam Overall	3.25 m
Beam Deflated	2.95 m
Draft	0.42 m
Dryweight - ex engines	3,000 kg

TWIN OUTBOARD OPTIONS

- Twin Yamaha 4 stroke to 600hp
- Twin Mercury Verado to 600hp
